

You are an amazing kid, and
I can't wait till the whole
world knows it!

Every amazing scientist, inventor, or
talented person who has changed
the world was once very different
from the people around them.

Will you still talk to me
when you're famous?

There's just something special
about you, it's like I'm meeting
someone very important before
everyone else knows it!

When we get your voice onto a page
or into a video or somewhere where
people can really hear you, they will
be as amazed as I am.

Maybe everyone doesn't know
how great you are yet, but
they will. I want you to know
that I knew it today!

Every day, I feel happy when
you walk in the door. Thanks
for making this school a
brighter place!

This world is a better place with
you in it! I know that in my
heart...

Kids like you, lead us to
more interesting places!

Are you an expert, dressed up
like a kid, trying to fool me?
